## Reviews

### Academic

Freshman and sophomore year classes are picked for you- English, Science (Biology freshman year, Chemistry sophomore year, and Physics junior year), History (World History over both freshman and sophomore years and US History junior year), Math, Foreign Language, and art. AP classes offered. Focus on writing at a college level.

### College Counseling

The counselors help compile all the recommendations, transcripts, and other files necessary. Do not offer much advice or help outside of organizing.

### Admissions Process

Interview required, dress conservatively. Look for students academically oriented. Entering high school students tend to be more athletic.

### Extra-Curricular Activities

Many clubs and sports, but they are not advertised well.

### Quality of School Life

Large, comfortable building, although unattractive on the outside. Many outdoor facilities. The campus is large. The school is only reachable by car and bus, but the town of Martinsville is nearby with a pizza place and some other food, as well as some restaurants in a plaza nearby. Crime is little to none. The only safety hazard is that students have to drive on highways to and from school.
